

VEGAN SHOPPING GUIDE

Eating Vegan at Good Harvest Market

In starting the transition to a vegan diet, there are a few different strategies. Some people shift into a vegan diet slowly, starting with vegan 'analogues'— plant-based foods whose taste resembles animal products. Others simply take out the animal products from their diet and replace them with plant foods with which they're already familiar. Still others concentrate on experimenting with entirely new vegan foods, often from international cuisines. At Good Harvest Market, there is no shortage of vegan foods to help make the transition. This list covers all **MANUFACTURER CERTIFIED VEGAN** foods that we carry.

For more information including delicious vegan recipes, visit our website: www.goodharvestmarket.com
