

### **Cranes**

In Japanese culture, cranes are a sign of good fortune and longevity. According to legend, if one folds one thousand paper cranes, their wish will be granted.

### **My Earrings**

Add a vibrant spark of color and some Japanese culture into your jewelry collection!

Earrings are made with traditional Japanese origami paper.

### **My Story**

I have been folding paper cranes since I was in the third grade after I read the inspiring story "Sadako and the Thousand Paper Cranes". From 2014 - 2016, I lived in an area of Japan known for its craft villages. Through this, I have come to deeply appreciate the craftsmanship that goes into creating beautiful pieces of art.

### **About Me**

I am a musician, traveler, and a doctoral student in psychology.

I primarily run my business to fund my education costs.

\$1 of every crane I sell will help to fund the healthcare costs of someone in my family.
